auping

Designed for life
Our collection of beds and box springs

Sleep, dream, wake up.
Daylight is everchanging, and defines our daily rhythm. Each season has its own feel, special light, and a new set of colours. The dawn of each new day is a magical moment, just like the evening, when the light disappears behind the horizon again.

Our manifesto

Auping has been working on the best ways to rest for over 135 years – and for good reason. We believe that a well-rested world is a better world. A more beautiful world.

Waking up well-rested affects everything. You feel more relaxed, energetic, alert, well-rested and friendly. You are awake. Sleep is precious. Going to sleep on time and sleeping through the night makes the difference between losing and winning. Between a yawn and a smile on that first date. Between a short temper and flying off the handle or being able to actually listen to the other person.

Everyone knows this. And yet, most people don't pay enough attention to resting and what it takes to achieve it. A good bed, for starters. But how do you find the bed that suits you best? One that fits your body? Your personal preferences?

You don't find that kind of bed. You make it. To measure. Because we're all different in our own way. An Auping is personal, custom-made craftsmanship. This is what makes an Auping so special. Every single bed is made with care and attention to detail, the environment, and the future.

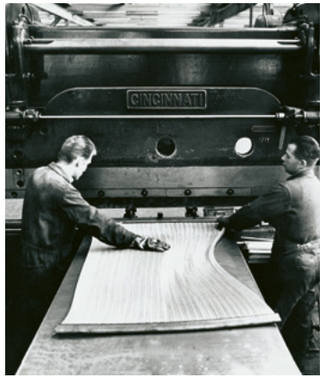

This is how we make sure every morning is better than yesterday. An Auping is more than just a bed. Or a mattress. It is our conviction; a well-rested world is a more beautiful world.

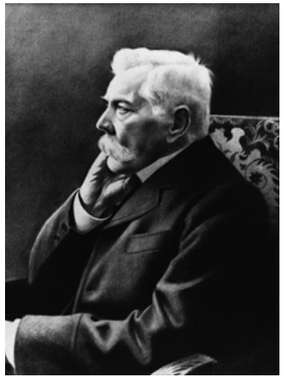

Auping rests the world

We've been located in Deventer for over 135 years.

Deventer craftsmanship

Since 1888

Johannes Auping was a hard-working blacksmith in Deventer. In 1888, the director of a hospital asked him to make a ventilating bed for the patients. He created a braided steel mesh mattress using a bean slicer and iron wire. Johannes Auping's smithy grew to become a mattress and bed manufacturer known for its excellent craftmanship. In 1988, Auping was awarded the predicate ‘Royal’.

Sustainable business operations

At Auping, we feel a strong responsibility to make the world healthier, safer and more liveable. For this reason, we are striving to make our entire product range fully circular by 2030 and ensuring all raw materials in our products are either renewable or recycled. In recent years, we have developed our beds and mattresses to take huge steps towards this goal.

Auping Essential
In 2012 we introduced the Auping Essential. The first fully recyclable bed in the world.

Auronde restyle
Since the introduction of the Auronde in 1973, over a million Auronde beds have been sold. In 2018, we set up our production process in such a way that we can repair and refurbish used Auronde beds to give them a second life. Even Auronde beds that are 50 years old can last another 50 years thanks to the strong materials and the high-quality repair work.

Auping Evolve
In 2020, we introduced the very first fully circular mattress in the world: the Auping Evolve. It's the perfect solution to the major waste problem caused by regular mattresses. The Auping Evolve was a breakthrough in the evolution of sleep technology and was rewarded with many prestigious design awards and sustainability prizes.

New generation of mattresses
Since this time, our range of mattresses has substantially expanded and become almost fully circular. With the introduction of the Auping Elysium and the Auping Elite, we now offer an increasing number of sustainable mattresses to provide the right support to each body type. After all, every person is different and every body is different. The world is changing and both we and our mattresses are changing with it.

Circular factory in Deventer
In 2024, Auping opened its new circular mattress factory, a first for the industry. This innovative production line makes it possible to operate in a fully circular and future-proof manner. It convincingly demonstrates that circularity is not only desirable, but also industrially and economically feasible.

Our sustainable world

Strong and sustainable

Every day, we work hard towards a better world in which nothing goes to waste and everything is reused for the next generation.

We always use high-quality sustainable materials as we believe you sleep better in a bed made with care and attention for the world around you.

Our Essential bed is made from 80% recycled aluminium. The 100% recycled aluminium legs can be recycled time after time, for example, as high-quality chair legs.

Strong and sturdy beech wood is the basic material used for our Auronde and Noa. The beech wood of the Auping Auronde and the Auping Noa is made up of 15 thin layers that have been pressed together. This process makes the wood incredibly strong and greatly extends the lifespan of our beds.
Our latest bed, the Auping Noble, is made from solid oak wood. Its immensely robust quality will serve generations to come.

This is how Auping makes dreams come true and how Auping brings rest to the world.

B Corp

We achieved the status of certified B Corporation in March 2020. B Corps are companies that aim to make a social difference and want the world to remain a liveable, healthy, and safe place for future generations. Organisations with the B Corp certificate voluntarily strive to meet the very highest standards with an emphatic and measurable focus on people, planet and society.

Since our foundation in 1888, we have continued to develop ground-breaking, handmade products that have changed the world of sleep and rest. Sustainability, circularity, design and innovation are key in everything we do. The B Corp status is more than a certification to us. Achieving and maintaining this status inspires and challenges us.

Meet the makers

137 years of local business

Since 1888, Royal Auping has produced locally in the Netherlands. Every Auping product is made of steel, wood and high-quality fabrics that last a long time. Every Auping is the result of handwork, craftsmanship and customisation. In our sustainable bed and mattress factory in Deventer, we work on the best ways to rest. We do this with a balanced mix of people and machines.
With real hands and robotic arms. With technical specialists and smart technology. Our production is order based. We only produce what is actually ordered because every person is different and every body is different.

At Auping, it's all about bringing rest to the world. We make our beds and mattresses as sustainably as possible in our green factory in Deventer. This also gives the environment a little rest.

Tekla Evelina Severin

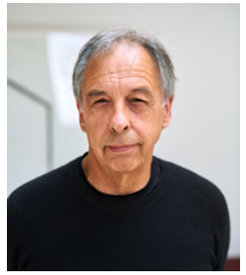

The Swedish Tekla Severin, also known as Teklan, is an internationally leading colour visionary and award-winning designer. With a background in interior architecture and a sharp eye for form, composition and colour, she has grown into a true creative phenomenon.

Characters by Teklan

For Auping, she developed a characterful collection of three distinctive bed colours – Burgundy, Mustard and Pastille Green – along with a matching limited collection of bed textiles. Each colour represents its own personality, with one goal: creating a bedroom that feels like an extension of yourself. *"If we see colours as characters, we can create spaces that truly resonate with who we are. Colours that touch you never go out of style."*

Auping Designers

Our product development, research, brand and design teams have been working together with respecteddesigners for years.These partnerships consist of developing a bed or textile collection or even jointly carrying out a colour study. Every collaboration is based on a shared pursuit of elegant, high-quality designs and well-thought-out products that contribute to a well-rested world.

Frans de la Haye

After studying mechanical engineering, Frans de la Haye graduated from the Royal Academy of Art in The Hague, specialising in Industrial Design. De la Haye has an extensive portfolio of clients, having worked for Ahrend, KLM, PTT and Shell, among many others.

Auronde

"I wanted to make a bed for Auping that would last for many years and that would be easy to assemble and disassemble." At that time, many beds were made of particle board, which damaged easily. So de la Haye opted for strong beech wood and came up with the characteristic aluminium connectors, which are an important part of the design.

Köhler & Wilms

Since 1996, Claudia Köhler and Irmy Wilms-Haverkamp have developed interior products that have been embraced by millions of users and awarded several international prizes.

Essential

For Auping, the design duo designed the Auping Essential, which has won several awards. The Essential is synonymous with innovation and sustainability with a contemporary, attractive and almost iconic design. The unique and organic shapes give this bed a friendly and natural look.

Eva Harlou

Eva Harlou is a Danish architect who graduated from the Aarhus School of Architecture in 2003. Her Scandinavian feel for form, functionality and beauty is clearly reflected in all of her designs. To Harlou, design is all about art, craftsmanship and capturing particular moments of our everyday life. Her designs always have a clear theme and tell a story.

Noa

She designed Noa for Auping. This wooden bed is a true Scandinavian design with its simple form, clever details and natural materials. "The idea was to create a durable bed with a classic look that easily fits into many different interiors. The design embraces our everyday life and all of its magical moments. Framed in a beautiful, functional and responsible design."

Johan van Hengel

Johan van Hengel is a designer from Rotterdam who has worked for Muuto, Hay and Montis, among many others. Driven by his passion for Scandinavian and Japanese aesthetics, his work is characterised by minimalism, simplicity, quality and functionality. He greatly enriches everyday objects, adding extra layers and dimensions.

Noble

"During the design process, I focused on understated luxury, functionality and reassurance. To me, luxury is also about using top-quality natural materials, hence the solid oak wood. The rounded corners have a soft feel and reflect great craftsmanship and quality. There is a beautiful layered effect as the tables are attached to the bed and the soft lounge cushions on the broad headboard rest upon the wooden platform. This helps add balance to a timeless design."

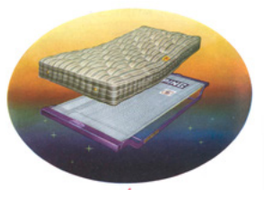

Scan to meet more Auping designers

Our design classics

Since the founding of Auping, sustainability and innovative design have been central in everything we do. Johannes Auping's philosophy has shaped the company from the very moment he designed his first bed. Auping's history contains several design classics. These classics in particular have made a great mark on Auping's design heritage.

1940 1953 1954 1973 2012 2020 2023

Sanitary undermattress

This type of mesh base without rivets was the first that could be produced in colour. You could choose between the colours gold, red, green, and purple. It could be made to any desired dimensions. The brackets made it easy to fit inside a crib or bedstead.

Cleopatra

The sofa bed Cleopatra breaks with the traditional design of all previous beds. A.R. (Dick) Cordemeijer was asked by Auping to design 'something beautiful'. The Cleopatra meant trueindustrial design. It was the first bed to be mass-produced and its elegant design is crafted from steel with a wooden ornament.

Ariadne

The Ariadne is the first bed designed by Friso Kramer. The frame is made of steel and the headboard and footboard are made of wood with rounded corners. In addition, the bed has slender, tapered legs. A typical 1960s design.

Auronde

The Auronde is made of beech wood and has distinctive aluminium details and curved legs. Frans de la Haye wanted to make a durable and modern bed. Not only a fully functional bed, but also one that could serve as furniture, used to read a book or watch tv.

Essential

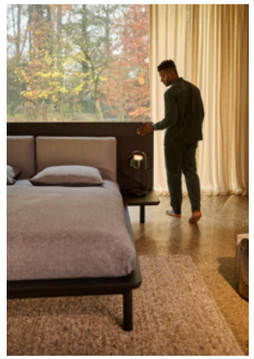

The Essential was designed by the Berlin design duo Köhler Wilms with the aim of creating a beautiful, timeless, and sustainable bed. It is sustainable due to the use of recyclable materials and its timeless design.

Noa

Noa was designed by Danish designer Eva Harlou. The Auping Noa is designed to be modest with natural materials and clever details – all perfectly in keeping with Scandinavian design tradition. Made from sturdy beech wood with an oak veneer, this airy design has a serene look.

Noble

Johan van Hengel is the creator of the Noble – a timeless and regal bed crafted from solid oak wood with exquisite lounge cushions and gently rounded corners. It's truly a bed for the generations.

A good bed base is essential to getting a good night's rest

The best support for you and your mattress means you will dream wonderfully every night. And with the right bed base, your mattress will be able to breathe more and will last longer.

The 3 benefits of an Auping mesh base:

- Because the mesh base has an 80% open structure, it ventilates better than any other bed base.
- The cross tense stretched mesh, with up to 10,000 support points, provides excellent support.
- The mesh base is made of hardwearing steel so it will last you a lifetime.

More than sleeping

Your bed is so much more than a place to sleep. It's where you slowly wake up with a cup of coffee, where you sink into a good book, or hit pause on the world with your favorite series. An adjustable bed base adapts effortlessly to your rhythm. With just one touch of a button, you find the position that feels comfortable. This way, your bed becomes a place that moves with you. On any moment of the day.

Our mattresses

A personalised mattress, guaranteeing the right choice

Every body is unique. That's why Auping creates personalised mattresses that support you exactly where you need it – such as your shoulders, waist and hips.

The Auping Sleep Scan™ analyses your body and shows where you need extra support. Our sleep experts combine this with your sleeping preferences and advise you on the mattress that is made for you. Your choice isn't based on a feeling but based on facts.

Whether you choose an Auping Evolve, Elysium or Elite — you can be sure you're making the right choice.

Our accessories

Pixel nightstand

Pixel is a contemporary nightstand that adds colour to your bedroom. The slender yet powerful design combines straight lines and curves. The use of classic Auping materials, wood and steel, results in a beautiful and timeless nightstand. The colours of the wooden cupboard, steel frame and drawer front can be selected individually. Allowing you to configure your favourite personal Pixel.

Pouffe

Place a round pouffe in your bedroom. Handy as a bedside table or an extra seat. Can be upholstered in all Auping fabrics to match your box spring or bed.

Cushions

Our decorative pillows are available in both square and rectangular shapes. The rectangular pillows have double-stitched panels and cambered buttons.

Original

The **Original** is a minimalist bed with strong lines and an elegant look. The bed is inspired by one of Auping's very first designs, the Cleopatra.

Original bed Mustrad — Straight headboard Mustard

Original bed Mustrad — Straight headboard Mustard

The Original has a strong frame made of steel and aluminium. The frame with rounded corners has an elegant look. It is available in 10 different colours, so chances are your favourite colour is included. The frame is always combined with the black Auping mesh base. By choosing extension legs in a different colour, you can add even more contrast to the bed. Of course, you can also choose to match the colour of the extension legs to the bed.

There are three headboards that perfectly match the design of the Original. Two upholstered headboards: Stitch and Outline. And a wooden headboard: Straight.

Stitch headboard

Original bed Sand beige — Stitch headboard

Original nightstands

This matching round, wooden nightstand seems to float on the sleek steel frame. The size might be small, but the amount of choices in the finish is not. You can choose from 15 different colours.

Original bed Mustard — Straight headboard Mustard

Original bed Mustrad — Straight headboard Mustard

Essential

Our **Essential** is the first fully recyclable bed in the world. But that's not the only reassuring thing about this bed. The sophisticated and minimalist shapes make this bed fit subtly into any room.

Essential bed Blush – lacquered headboard – Blush extension legs

The refined Essential has a minimalist design. This modern design brings tranquillity into every bedroom and fits perfectly into the latest trends. Actually, just looking at it is restful. Plus, the Essential is the first fully recyclable bed in the world. The bed can be disassembled easily, is made of aluminium, and the parts are largely reusable. The subtly tapered legs elegantly carry the bed. The soft, curved headboard is there to support you. The fabric fits perfectly, because the headboard upholstering is done by hand. It feels so wonderful to crawl into; with a cup of tea or with your sweetheart.

The choice of the headboard is entirely up to you; painted or upholstered, in your favourite colour or that of your partner. We can also powder-coat the aluminium legs and the frame in the colour of your choice. Would you like matching nightstands? Or do you dream of an electrically adjustable Essential? Everything we do, is with love.

Upholstered headboard

Essential bed Sand beige
Elevation legs Pure white

Essential bed Warm grey – lacquered headboard

Essential bed Sand beige

The Essential is made of 87% recycled aluminium and is the first fully recyclable bed in the world. This means that we meet strict requirements in terms of material safety and reusability.

Essential bed Burgundy — lacquered headboard

Essential bed Burgundy

‘For us it is important that the Essential can be used in interiors in a wide range of styles, which will ensure a long lifespan.’

Köhler & Wilms

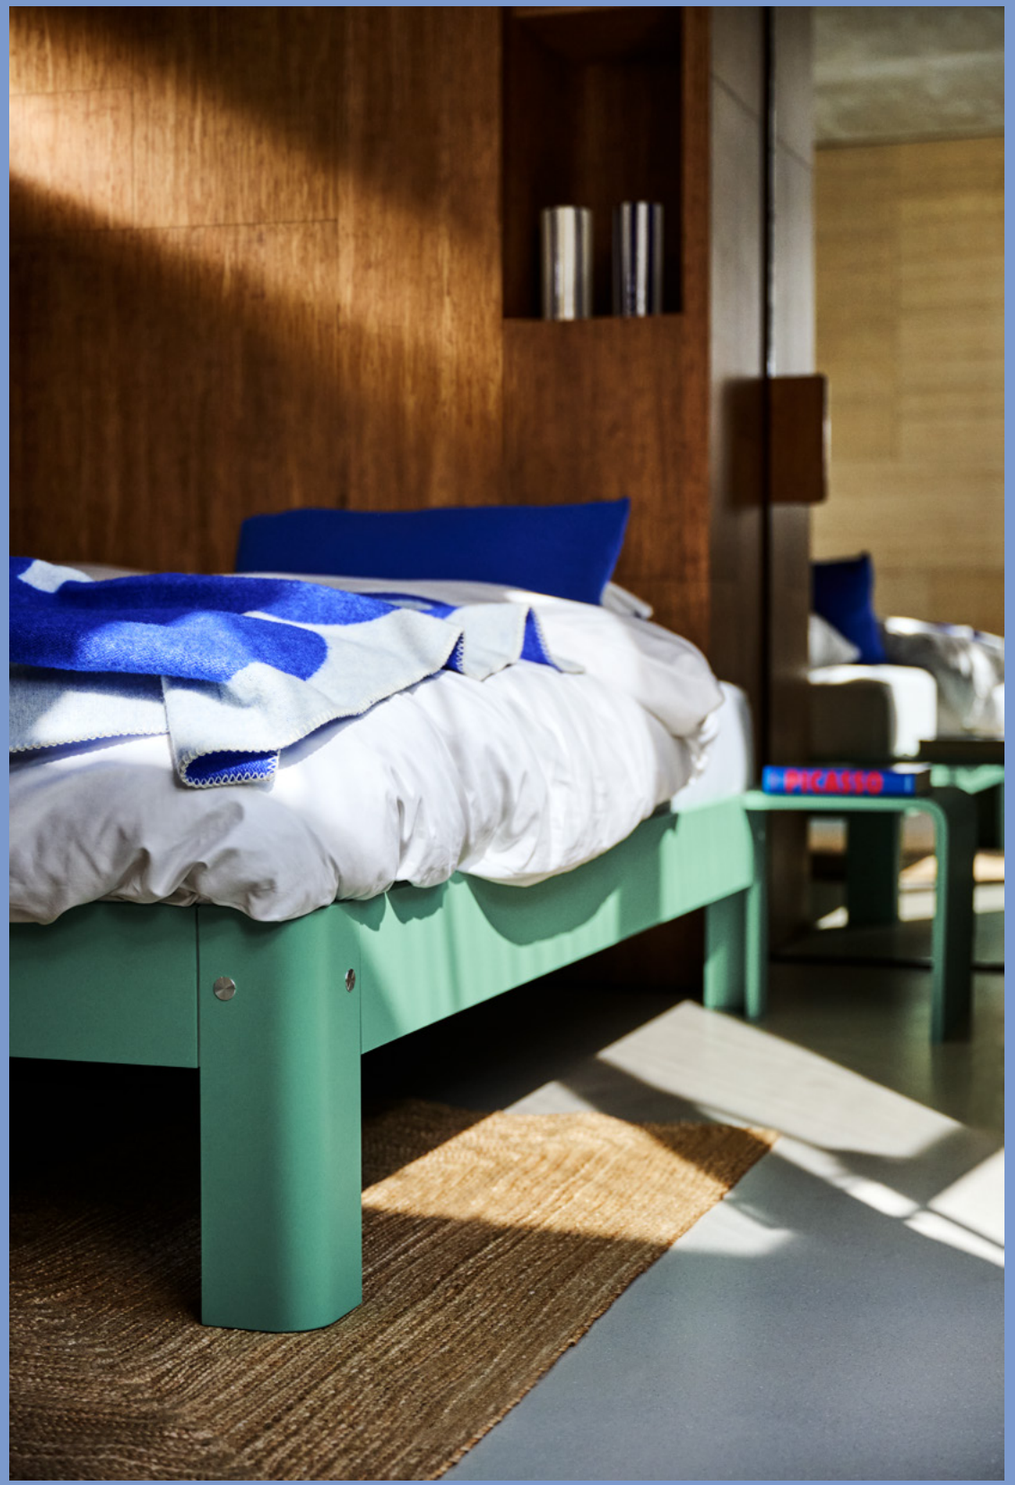

Essential bed Burgundy — lacquered headboard — Burgundy extension legs

Auronde

The **Auronde** is a true design classic, made from exceptionally strong beech wood with distinctive aluminium details. Designed by Frans de la Haye in 1973.

Auronde bed Pastille green – Aluminium details

Auronde bed Pastille green — Aluminum details

Auronde bed Pastille green — Aluminum details

The Auronde is made from exceptionally strong beech.

The Auronde's unique design means it never goes out of style, even 50 years after it was first introduced. The round shapes, which were very innovative at that time, have maintained an exceptionally timeless look. The characteristic aluminium connectors are an important part of the design, as is the wide range of colour choices. The choice of the many colours and the 3 accessories make the bed complete. The rear element of the Auronde is a valuable accessory consisting of 2 nightstands connected to the headboard of the bed. This gives you the option to keep everything you want close to you at night, such as a nightlight.

Auronde bed Sand beige — Sand beige details — Natural oak bedside table

‘I wanted to make a bed that would remain beautiful for many years, last for generations and would be easy to assemble and dismantle.’

Frans de la Haye

Auronde bed Natural oak — Night blue details — Natural oak headboard — Deep black bedside table

Auronde bed Sand beige — Sand beige details — Natural walnut bedside table

The Auronde can be combined with a beautiful headboard in two heights. The Auronde headboard has beautiful, rounded corners and matches the bed perfectly. The Auronde bedside table also has rounded shapes, is made of bent beech plywood and can be placed anywhere on the bed. Place it next to the bed or at the foot end, for example. The angle of the bedside table is just under 90 degrees, so you can easily move it around.

The Auronde is made from exceptionally strong beech. For the finish, you can choose from 10 different colours of lacquer, 5 stains on oak veneer, or a walnut veneer. Choose a matching or contrasting colour for the aluminium details.

N O a

Noa is a genuine Scandinavian design, boasting simple shapes, clever details and natural materials. Designed by Danish designer Eva Harlou. Made with love in The Netherlands. Made in our sustainable factory in Deventer.

Noa bed Balanced oak

Noa bed Balanced oak

Auping Noa is made from sturdy beech wood with an oak veneer. It has an airy design and a a subdued, serene look. It is guaranteed to look beautiful in every bedroom.

The finish is what makes the bed so beautiful and relaxing. The edges, for example, feature an exquisitely detailed design such that the bed only has rounded features. We make this bed from beech plywood. This wood is made out of layers and one of its great properties is its flexibility. This is how we give Noa its elegant curves and signature Auping look.

The wheels are not only beautiful eye-catchers, they actually turn. At first glance, you may think they don't because we have hidden the mechanism on the inside of the wheel. This allows you to move the bed around with ease. Convenient if you want to redecorate your bedroom.

Noa bed Soft white oak

Soft white oak bedside table

Noa bed Soft white oak

'I consider the bed as a piece of furniture that must be beautiful from all sides so that you can place it in the middle of a room like an oasis of tranquillity, where you can drift off into delightful dreams. Thanks to its timeless design the bed will never go out of fashion and simply grows more beautiful with time.'

Eva Harlou

Noa bed Chocolate brown

Noa Daybed Balanced oak

The elegant, milled headboard features vertical lamellas. That gives the bed a subtle and airy look. Do you prefer a closed headboard? No worries, we've got one too. The headboard is attached to the bed with a hidden support, making it appear as if it were floating behind the bed. The curved headboard curls around the bed. Cosy to snuggle up against. With a cup of tea, or your sweetheart.

The Auping Noa table can be placed next to your bed as a bedside table, but you can also tilt the table, which is handy if you have some work to finish. Or if you want to enjoy some Netflix. The frame of the table is made of Deep black powder-coated steel. The tabletop is made of beech plywood with oak veneer and is available in the same finish as the Auping Noa frame.

Noa bed Balanced oak

The name Noa literally means tranquillity, comfort, and security.

Noa bed Balanced oak

Noble

Discover the **Noble**, a large bed with a broad surround frame and regal lounge cushions. Designed by Johan van Hengel, it is crafted from solid oak wood and can be adjusted to perfectly suit your tastes. In this way, you can enjoy its luxury and comfort in an entirely personal and sustainable style.

Noble bed Solid oak

Noble bed Midnight black oak

The bed radiates understated luxury. The design consists of a broad, floating wooden surround frame made from solid oak wood and with rounded corners. The tables on both sides of the bed are attached to the wooden surround frame and held in place by legs in the middle of the underside of the table. This creates a stylish and harmonic vibe as well as being the perfect place for a delicious breakfast or your favourite book. The wooden surround frame supports the regally upholstered headboard featuring two large cushions, giving the bed a luxurious layered look and creating the perfect place to lounge around in comfort.

Noble bed Midnight black oak

The word noble can be defined in many different ways, such as upstanding, high class, honourable and admirable, and this design reflects all of these meanings.

Noble bed Midnight black oak

Noble bed Chocolate brown oak

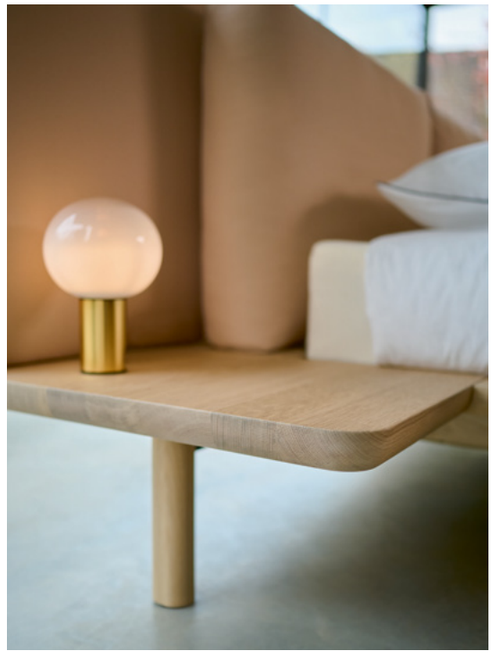

Noble bed Solid oak

‘The Auping Noble reflects the craftsmanship of both our designers and our manufacturers. Together, we sought the very best oak that can be found.’

Johan van Hengel

Noble bed Solid oak

What makes the Noble so different from our other beds is the two large cushions on the headboard. They're very tall and as wide as the mattress, making them extremely comfortable to lean back on. Of course, you can also choose your very own cushion covers to perfectly suit your tastes. You can have them in the same colour and fabric as the headboard, although you may also wish to select a different colour or fabric to create an eye-catching contrast.

The oak wood can be stained in one of four colours: Solid oak, Soft white oak, Chocolate brown oak and Midnight black oak. Like all of our other beds, the Noble is manufactured in our factory in Deventer. You can combine the Auping Noble with our Auping Smart Base for extra comfort and support.

Noble bed Solid oak

Original

The Auping **Original box spring**: the way a box spring is meant to be. A timeless design with an eye for high-quality craftsmanship.

Original box spring — Wink headboard — Deep black legs

Original box spring — Line headboard

Our boxspring has it all: it is featured with a mesh base and pocket springs. Both have their own advantages. You can easily change positions during the night thanks to the pocket springs in both the box spring and the mattress. They also offer great support while sleeping. The mesh base has an 80% open structure, which makes it especially well-ventilated. This gives you air. The pocket springs and mesh base ensure that you are well-rested. It's no coincidence that this boxspring has been named 'Best Tested' by the Dutch Consumers' Association four times.

Complete your Original box spring with a headboard and footboard. You can choose from 8 headboards and 1 footboard for the Original box spring. They are all upholstered by hand in our sewing workshop in Deventer. You'll notice this, because the headboards and footboards are upholstered all the way around. This way the Original box spring will even look good when placed in the middle of the room. A bed that's beautiful even from the back: that sounds like a dream.

All of the headboards are designed by the Auping Design Studio in Deventer. The Mute headboard is a peaceful headboard with subtle cord piping all around. This headboard fits into practically any bedroom but it's far from boring. Wink is Mute's rebellious little brother. The headboard frame has flat-stitching all around; the points are slightly raised for a playful effect. Bold is very solid and sturdy, and is very suitable if you want to make a statement in your bedroom. Line is a graphic and cosmopolitan headboard due to the vertically stitched pattern.

Original box spring — Mute headboard

Original box spring — Bold headboard

Original box spring — Valencia headboard

Criade

Auping **Criade** is a slim lined, sophisticated box spring. The Criade's steel frame is what gives it its unique signature, with horizontal lines that bring harmony to the design.

Criade box spring — Plain headboard — frame Mustard

Criade box spring — Plain headboard — frame Mustard

A soft upholstery and sturdy steel: that combination of materials is what makes the Criade's design a true Auping. The strong frame largely consists of recycled steel and is of a high quality. We can powder coat the steel in the colour of your choice at our own factory in Deventer. This way, your frame remains wear-resistant and colourful.

Auping has an extensive fabric collection of no less than 87 choices to upholster your Criade.

Criade box spring — Plain headboard

Criade box spring — frame Mustard

The Criade is available with 4 headboards and 3 footboards. Plain: a rectangular headboard (and footboard) with a sleek, clear design. Bend: a curved, 2-piece headboard (and footboard) with rounded details. Square: a high headboard (and footboard), quilted and classically finished with round buttons. Cushion: a soft and somewhat looser upholstered headboard finished with elongated metal rods that are always the same colour as the box frame.

Plain headboard

Criade box spring — Plain headboard — frame Mustard

K i r u n a

The luxury **Kiruna** box spring has a refined design with attention to every detail and a very high-quality finish.

Kiruna box spring – Sami mattress – Valencia headboard

Kiruna box spring — Sami mattress — Sami headboard

Kiruna box spring — Unik mattress — Unik headboard

Comfortable luxury to help you dream away.

Kiruna top mattress with wool

The luxurious Kiruna box spring has a refined design with attention to every detail and a very high-quality finish.

The unique Kiruna mattresses have up to 7 zones, ensuring perfect support and comfort. The Sami mattress has a sleek finish, while the Unik mattress has an extra rich look with elegant handles, piping all around, and sophisticated side stitching.

Kiruna box spring — Unik mattress — Unik headboard

Complete your Kiruna box spring with a Kiruna topper. Kiruna toppers have a rich finish, are made from natural materials such as pure wool and horsehair, and are upholstered on the sides so that they fit perfectly with the box spring. There are two headboards to choose from for the Kiruna: the slender and stylish Sami and the classic Unik. Or combine it with one of the headboards from our Original box spring.

Bedding

Your bed, your pillow, your duvet

For a good night's sleep, you naturally want a comfortable bed and a mattress that truly suits you. But a well-supporting pillow is just as important for a healthy sleeping posture. And what's better than slipping under a wonderfully soft duvet at the end of the day?

Because everyone is just a little different, our collection includes a range of pillows and duvets. This way, you can always choose the combination that fits your body, your preferences and your sense of comfort. Our assortment is made from natural and sustainable materials, so you not only sleep well, but also make a conscious choice.

Fitted Sheets & Mattress Protectors

Of course, you want your Auping mattress to be protected as well as possible, with a fitted sheet and mattress protector that fit perfectly. Auping fitted sheets and mattress protectors protect your mattress from moisture and wear, helping it maintains its quality and comfort over time, so you can rest easy every night.

All Auping fitted sheets and mattress protectors are GOTS-certified. This means that the cotton in the product is fully organic and that the entire chain—from harvest to final product—is strictly and independently monitored. That way, you can be sure you're choosing products that are made responsibly, with respect for people and the environment.

Duvet Covers

Add extra colour and style to your bedroom with bed textiles that suit you. Whether you love bold prints, soft pastels or timeless white, the Auping collection offers beautiful duvet covers for every style, perfectly matching your Auping bed.

Our duvet covers are also GOTS-certified. This ensures that the products you buy are produced sustainably and ethically. It not only helps you sleep better, it feels better too.

Design your dream bed

Your choice of fabric for your bed determines the look of your bedroom. So make sure you give it some thought. And are you overwhelmed by all the choices out there? No worries. You can see and touch all the colours and fabrics in our stores, and we will be happy to advise you on which fabric is best suited to the bed of your choice. You can take a close-up look at all the fabrics from the comfort of your own home thanks to our dream bed configurator.

Fabrics

87 fabrics to choose from

Some like to lie in bed for a long time, while others open every curtain in the house as soon as they get up. One person makes their bed neatly every morning and the other jumps out and doesn't look back. Some people go for colour and others like to keep it serene. It's obvious that everyone is different and that style and preferences are personal. That's why Auping has an extensive fabric collection of up to 87 choices to upholster your bed and bedroom accessories with. The 15 fabrics not only vary in colour, material and structure, but also distinguish themselves from each other in terms of sustainability and production method.

Fabric group A

These are basic fabrics in solid colours that have subtle textures. All fabrics – Grid, Peach, Mellow and Salt – are made of polyester.

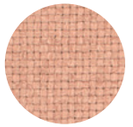

Peach

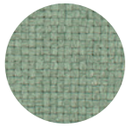

Peach 5 Beige

Peach 47 Royal blue

Peach 51 Khaki

Peach 66 Graphite

Peach 166 Blossom

Peach 193 Eucalyptus

Grid

Grid 1 Natural

Grid 68 Dark grey

Grid 106 Pearl

Grid 153 Denim

Grid 169 Onyx

Grid 176 Sepia

Salt

Salt 12 Taupe

Salt 67 Anthracite

Salt 102 Ecru

Salt 169 Onyx

Mellow

Mellow 01 Natural

Mellow 05 Beige

Mellow 28 Cognac

Mellow 169 Onyx

Mellow 170 Brass

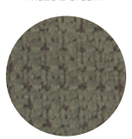

Mellow 215 Mushroom

Fabric group B

The fabrics in fabric group B have a rich, inviting look and feel wonderfully soft. Square, for example, has a wonderfully soft feel thanks to the micro-chenille yarns. Sustainability also plays a significant role in this fabric group. Maze, for example, is made from 100% recycled PET bottles, and Points is made from recycled yarns from clothing

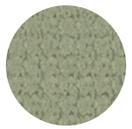

Maze

Maze 2 Cream

Maze 12 Taupe

Maze 67 Anthracite

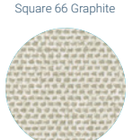

Maze 167 Zinc

Maze 193 Eucalyptus

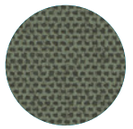

Square

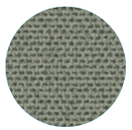

Square 10 Liver

Square 66 Graphite

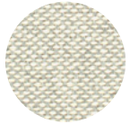

Square 84 Clay

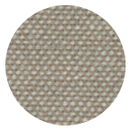

Square 96 Hazel

Square 162 Forest

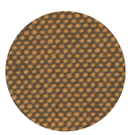

Square 214 Herb

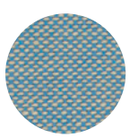

Points

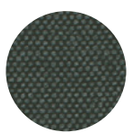

Points 1 Natural

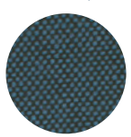

Points 181 Stone

Points 92 Blush

Points 16 Caramel

Points 45 Blue

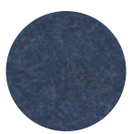

Points 66 Graphite

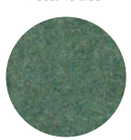

Points 153 Denim

Fabric group C

In fabric group C, you'll find three warm, rich fabrics with unique textures: Facet, Reflect, and Terra. Terra, for example, is the perfect choice for those looking for a contemporary bouclé fabric. Each fabric has a distinctive character and will give your bedroom a luxurious look.

Facet

Facet 45 Blue

Facet 50 Mint

Facet 180 Dolphin

Facet 1000 Light grey

Facet 1001 Dark grey

Facet 1007 Navy

Facet 1037 Beige

Reflect

Reflect 174 Cool grey

Reflect 184 Black grey

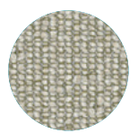

Reflect 224 Sand beige

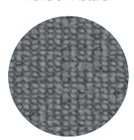

Reflect 464 Dusty red

Reflect 564 Coral red

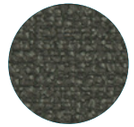

Reflect 994 Dark green

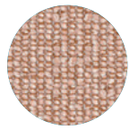

Terra

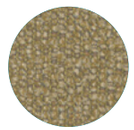

Terra 01 Naturel

Terra 68 Dark Grey

Terra 96 Hazel

Terra 156 Hunter

Terra 166 Blossom

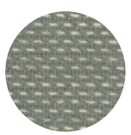

Terra 216 Curry

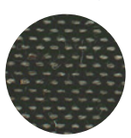

Fabric group D

Fabric group D consists of three premium wool fabrics from Danish manufacturer Kvadrat: Clara, Remix, and Re-wool. These fabrics have been specially selected for their luxurious look, high quality, and sustainable character. They are made in Great Britain from the finest wool and provide a warm, rich base for your bedroom.

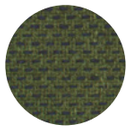

Clara

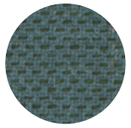

Clara 144 Light grey - Grey

Clara 148 Grey

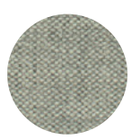

Clara 188 Black - Grey

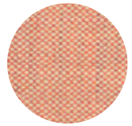

Clara 544 Light grey - Orange

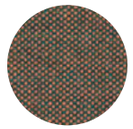

Clara 793 Forest green

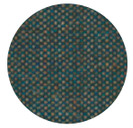

Clara 983 Cool grey

Remix

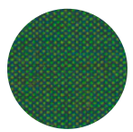

Remix 123 Grey

Remix 612 Peach

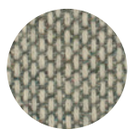

Remix 672 Sienna

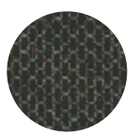

Remix 753 Rusty blue

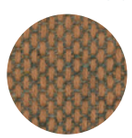

Remix 866 Royal blue

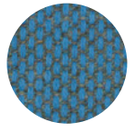

Remix 982 Green

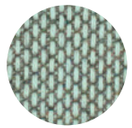

Re-wool

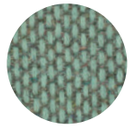

Re-wool 128 Sand brown

Re-wool 198 Black grey

Re-wool 378 Brown

Re-wool 758 Royal blue

Re-wool 828 Ice blue

Re-wool 868 Soft green

Fabric group E

Fabric group E contains two luxurious and exclusive fabrics. The knitted fabric Plecto and woven Jaali combine wonderfully with the other fabrics in the Auping range and add a sense of luxury to the bedroom.

Jaali

Jaali 101 Cool grey

Jaali 201 Sand beige

Jaali 341 Brown

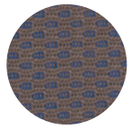

Jaali 751 Blue

Jaali 781 Royal blue

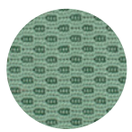

Jaali 991 Green

Plecto

Plecto 224 Beige - Taupe

Plecto 654 Taupe - Blue

Plecto 784 Blue - Orange

Plecto 934 Mint
